Oh, my brain is like a holy ground that everyone treads on  
My picket signs  
They don't step on my grass  
I clearly marked the lines

And I will go  
And I will go  
And I will go  
Until you, until you  
Until you wrap me up and take me home  
Until you wrap me up and take me home

Get out  
I never thought it was true  
My world's collapsing on me  
This is what we were for you  
Get out  
I never thought it was true  
My world's collapsing on me  
This is what we were for you

Oh, my brain is like a holy ground  
I see him in my head  
Vandalising, paralysing  
And manipulating my mistakes

And I will dive  
And I will dive  
And I will dive  
Until you, until you  
Until you wrap me up and take me home  
Until you wrap me up and take me home

Get out  
I never thought it was true  
My world's collapsing on me  
This is what we were for you  
Get out  
I never thought it was true  
My world's collapsing on me  
This is what we were for you

Oh, I feel a little nervous  
When I'm with you  
When I'm with you  
Oh, I feel a little nervous  
When I'm with you  
When I'm with you  
Oh I feel a little nervous  
Whenever I'm with you  
I feel a little nervous  
When I'm with you
