

Dangerous

WAAX

Desperate, going home
Don't leave me on my own
I can share all my wisdom if you want
Insane all the crimes, all the worst will survive
It's hard to tell if we're alive

Oh you think you lost me in the crowd
But I'm dangerous now, oh I'm dangerous now
Oh you think you had it all worked out
But I'm dangerous now, but I'm dangerous now

In love, hate me, and I'll stay to keep the peace
He's the answer never let me speak
Tiptoeed around the fights til a
Ll the love was compromised
I remember, I feel everything

Oh you think you lost me in the crowd
But I'm dangerous now, oh I'm dangerous now
Oh you think you had it all worked out
But I'm dangerous now, but I'm dangerous now

You're bad for me bad for me bad
I'm bad for you bad for you bad
You're bad for me bad for me bad
Like I'm bad for you bad for you bad

Oh you think you lost me in the crowd
But I'm dangerous now, oh I'm dangerous now
Oh you think you had it all worked out
But I'm dangerous now, but I'm dangerous now
Everything you were you're just not now
Makes it dangerous, makes you dangerous
