

Fired Up

WAAX

You got me thinking
Head in the sand
I keep on breathing
The devil's hand comes up
To take me by the face
It's easy living
Here in the west
What I believe in
Get off my chest
And no, no one makes a sound

You got
Heaven in your hands, still you feel ripped off
Give me one more chance just to check the pulse
Getting fired up when I see you around
Getting fired up

Getting fired up, I'm watered down
Someone is pissing on the grave of this town
And all you did was watch it drown
Forecast your disappointment
To everyone, say
My only need for it
Is to throw it away
You got nothing to lose

You got
Heaven in your hands, still you feel ripped off
Give me one more chance just to check the pulse
Getting fired up when I see you around
It's written on these walls, hear it in the halls
Give us one more chance like you did before
Getting fired up when I see you around
Getting fired up

If you wanna show your love
Fire up and give me a sign
If you wanna show your love
Fire up and give me a sign

It's written on these walls, hear it in the halls
Give us one more chance like you did before
Getting fired up when I see you around
Getting fired up
Getting fired up
Getting fired up
