Help Me Hell

WAAX

Help Me Hell, fuck my life still sucks
I can't be somebody to love
It's not my fault, it's just how I grew up
Help Me Hell, fuck my life still sucks

I can't keep on top of it
My head, my heart, my sympathy
Goes whenever I think of it
I've been burned before
I can't keep on top of it
My head, my cash, my energy
Goes on things that ain't happened yet
My world's a dumpster fire
My world's a dumpster fire

Help Me Hell, fuck my life still sucks
I can't be somebody to love
It's not my fault, it's just how I was taught
Help Me Hell, fuck my life still sucks

Dear diary,
Mood apathetic

Fire up the car
We're leaving today
'Cause I hate myself and I hate this place
And I can't be trusted
With my own thoughts
Guess I'll be leaving before I fuck up
Help me out
I gotta get away
Cause life is a lie
And life is pain
You gotta help me out
You gotta help me out
You gotta help me out
You can't help me out

Help Me Hell, fuck my life still sucks
I can't be somebody to love
It's not my fault, it's just how I grew up
Help Me Hell, fuck my life still sucks
Help Me Hell, fuck my life still sucks
I can't be somebody to love
It's not my fault, it's just how I was taught
Help Me Hell, fuck my life still sucks
Help Me Hell, fuck my life still sucks
