

No Doz

WAAX

Thinkin that I'm way too drunk to drive
Thinkin that I might not have the keys
I don't wanna die, get a no doz
From up the street, up the street

Hate it that I always take you back
Hate it that you won't just change for me
I don't need a map coz I'm too dumb
To ever leave, ever leave

Speedin through a red light
Thinkin it's a green light
Waitin for a car crash
We can't stop, we can't see
Noone's in the driver's seat
No control, no control
Lights go out, windows shake
One of us has cut the brakes
No control, no control

Never should've let you come with me
I never should've let you take the space
I don't wanna die and I hope you
Forget my name, forget my name

We live, we ride, we never know
We fall around like dominoes
I'm sick of looking at windshields
I want to know how clear air feels

Speedin through a red light
Thinkin it's a green light
Waitin for a car crash
We can't stop, we can't see
Noone's in the driver's seat
No control, no control
Lights go out, windows shake
One of us has cut the brakes
No control, no control

Runnin from nothin
Runnin from nothin
Runnin from nothin
Runnin from you
