WAAX

You showed up  
Announced, unprepared and unaware  
That I know that you gone fucked up  
You never cared for me  
And everything was fake so I talked  
Let's pretend like nothing happened  
Until you drunken text me again  
And I have not  
No energy left

So come find me  
Where you left me  
Come find me  
Where you dragged me in  
Come find me  
Where you buried me and

Don't leave me on read  
Don't leave me here  
Don't say we're friends  
Don't leave me on read  
Don't leave me on read  
Don't leave me here  
Don't say we're friends  
Don't leave me

This time is the last time  
That I see you in the valley  
In the morning when you ride home  
I will call you just to say  
Don't leave me on read

You rocked up  
Can't believe you had it in your  
When you still show your face  
And so what  
I don't give a shit about who you're with  
Or who you know  
When you're just  
Another guy on a band  
There's plenty of you out here  
And I have not  
No energy left

So come find me  
Where you left me  
Come find me  
Where you dragged me in  
Come find me  
Where you buried me and

Don't leave me on read  
Don't leave me here  
Don't say we're friends  
Don't leave me on read  
Don't leave me on read  
Don't leave me here

Don't say we're friends  
Don't leave me

This time is the last time  
That I see you in the valley  
In the morning when you ride home  
I will call you just to say  
Don't leave me on read

Don't leave me on read  
Don't leave me here  
Don't say we're friends  
Don't leave me on read  
Don't leave me on read  
Don't leave me here  
Don't say we're friends  
Don't leave me
