

Same Bitch

WAAX

Darling, you know me, I'm still that same bitch
I'm still that same bitch!

I just wanna sleep through this, forget you when I wake
Another lover in your place, coz I'm bored already
I just wanna sleep through this, not teach you to behave
Become a person that I hate
Pull your head in honey

Darling, you know me, I'm still that same bitch
That I've always been
Lovely, should know me, I'm still that same bitch
That I've always been
That I've always been

I just need a god damn break
You'll accept me or fuck off
Men are dogs made all the same
I feel so much better since you left
You need a therapist, so weak so arrogant
Don't something you know you'll regret
I'm in a mood again, I'll hit the roof my mans

Darling, you know me, I'm still that same bitch
That I've always been
Lovely, should know me, I'm still that same bitch
That I've always been
That I've always been

I just wanna live
I don't wanna think
Nothing left to give

Darling, you know me, I'm still that same bitch
That I've always been
Lovely, should know me, I'm still that same bitch
That I've always been

I'm still that same bitch, I'm still that same bitch
