

Wisdom Teeth

WAAX

Wisdom teeth breaking through
No more sugar for you
I need your kiss
Gonna teach you all about it
Where's a working pen?
So I can write down all my feelings
I need your kiss
Gonna teach you all about it

```
And all the smart ones say
"Reject the handshake, reject the handshake"
And all the smart ones say
"Reject the handshake, reject the handshake"
```

I'm never gonna leave you alone, oh no
We're never getting out of here
I'm never gonna leave you alone
We're never getting out of here

Not safe alone
The room's getting blacker
Feels bigger
I'm not sure
I can't sit still
I keep on twitching
Someone tell me what day it is

```
And all the smart ones say
"Reject the handshake, reject the handshake"
And all the smart ones say
"Reject the handshake, reject the handshake"
```

I'm never gonna leave you alone, oh no
We're never getting out of here
I'm never gonna leave you alone
We're never getting out of here

[illegible]

I need some peace (shut up, shut up, shut up!)
I need some peace (shut up, shut up, shut up!)
I need some peace (shut up, shut up, shut up!)
