

# Good Luck with That

Wade Bowen

My boss thinks he knows it all  
He's a certified S.O.B  
No matter how hard I try  
He never lets up on me  
A dose of his own medicine  
Sure would serve him well  
But I walk in tomorrow morning  
And tell him he can go to hell

Good luck with that  
As a matter of fact  
I've been down that road before  
And I ain't going back  
Don't get mad  
I just have to speak my mind  
Don't waste your time  
Or forget your hat  
Cause good luck with that

Told my baby I was heading out  
And meeting Doug down at the bar  
She knows when we get together  
We've been known to take it to far  
She asked me when I'd be home  
I said don't wait up on me  
Cause I am the man of the house  
And I can do as I please

Good luck with that  
As a matter of fact  
I've been down that road before  
And I ain't going back  
Don't get mad  
I just have to speak my mind  
Don't waste your time  
Or forget your hat  
Cause good luck with that

So we sat down to write this song  
You outta make everyone sing-a-long  
No way how we could be better  
It's going to be the best song ever

Good luck with that  
As a matter of fact  
I've been down that road before  
And I ain't going back  
Don't get mad  
I just have to speak my mind  
Don't waste your time  
Or forget your hat  
Cause good luck with that
