

# My California

Wade Bowen

There's something about the way you move that moves me... Mmm  
Like you never had a fence around your heart  
I can't explain what your kiss does to me, but I lose me  
Like a LA sky full of unseen stars

You are untame  
You are free

You are my California wild, wild west and a gold rush dream  
Walking around with a spotlight on your beautiful Hollywood silver screen  
Don't ya... know I want ya  
My California

That shoreline has a certain kind of beauty...Mmm  
Once you've seen it, you don't see things the same  
You linger like red wine made in the valley  
Ya you leave me... longing for just one more sweet taste

You are timeless  
You get me high

You are my California wild, wild west and a gold rush dream  
Walking around with a spotlight on your beautiful Hollywood silver screen  
Don't ya... know I want ya  
My California

You are untame  
You are free

You are my California wild, wild west and a gold rush dream  
Walking around with a spotlight on your beautiful Hollywood silver screen  
Don't ya... know I want ya  
Ya don't ya... know I want ya  
My California

Oh my California  
Oh my California  
My California  
Mmm
