

# Sun Shines on a Dreamer

Wade Bowen

She blew in from out of town  
Georgia tags and a rag top down  
Turning heads in the neighborhood  
Half downhome, Half Hollywood... looking good  
She had two months rent in rolled up cash  
A blue tick hound that she called Nash  
Sent a postcard home with an ocean view  
Just got here Momma I miss you

When she prays every night  
And when she wakes every morning

The sun shines on a dreamer  
Shines a light on you when you listen to your heart  
The sun shines on a dreamer  
Shines a light on you through the dim, through the dark

Ooooooh

She met Joe at the Grocery  
Late one night in aisle three  
Standing next to the refried beans  
Shining through his old blue jeans

Well hello is all it took  
And they rambled on down the road

The sun shines on a dreamer  
Shines a light on you when you listen to your heart  
The sun shines on a dreamer  
Shines a light on you through the dim, through the dark

They climbed onto the carousel  
Now they're sitting up there on top of the world  
Arms wide open to the sky  
Yeah you gotta dream if you wanna fly  
Yeah you gotta dream if you wanna fly

The sun shines on a dreamer  
Shines a light on you when you listen to your heart  
The sun shines on a dreamer  
Shines a light on you through the dim, through the dark

Oooooooh
