

# The Request

Wade Bowen

When she walked up to the stage  
I saw the teardrops in her eyes  
She said I'd love it if you'd play  
A song or two for me tonight  
Everybody's havin' fun  
And I might be the only one  
Just been done wrong  
Just cheated on

Play me a heartache I can dance to  
I'll find a stranger I can hold on to  
Tender arms that hold no memories  
Might be just the thing I need  
Mister keep me off that barstool  
Keep me from drinkin' like a lovesick fool  
If there's any mercy in you  
Play me a heartache I can dance too

I never saw that girl again  
But I still see her face  
Every time one walks in  
I know what she's gonna say  
And it cuts just like a knife  
Lookin' in them pretty eyes  
And hearin' again  
Hey, honky tonk man

Play me a heartache I can dance to  
I'll find a stranger I can hold on to  
Tender arms that hold no memories  
Might be just the thing I need  
Mister keep me off that barstool  
Keep me from drinkin' like a lovesick fool  
If there's any mercy in you  
Play me a heartache I can dance too  
Yeah, Mister keep me off that barstool  
Keep me from drinkin' like a lovesick fool  
If there's any mercy in you  
Play me a heartache I can dance too
