

## Tired Of Being Alone

Wade Bowen

Sunday rolled around and I'm alone again  
I picked up the phone and I started to call  
I dialed your number, let it ring a couple of times  
And hung it up 'cause I was just too scared

Hardly a day goes by I don't think about you  
I know it's been so long  
I've still got the memories way down inside my heart  
And I wonder if I'll ever love like that again

Well I'm tired of being alone  
I want to rest my weary head  
And I want to know if love is real  
I want to feel the passion  
And the smile upon my face  
Of my sweet baby in my arms  
Loneliness is a lonely song and  
I've been singing it way too long  
I'm so tired of being alone

I've had people tell me that they're tired  
They been hearing my sob story way too long  
They say I need to find someone  
If only I would try  
Oh but I've been trying way too long
