

Trouble Is

Wade Bowen

Here we are
Too close to be so far away
Heart to heart
That don't mean that we're okay
There been nights
Might as well've been alone
God knows we tried
We just keep on hangin' on

Trouble is
You don't love me anymore
And if ya did
You'd turn around and shut that door
It's come to this
Time to lay this burden down
Trouble is
We don't know how

We've been through
A lot together you and me
If we only knew
This is where we're gonna be
Done our best
Not to say the words out loud
But I guess
It doesn't matter anyhow

Trouble is
I don't love you anymore
If I did
I'd never let you touch that door
It's come to this
Time to lay this burden down
Trouble is
We don't know how

Yeah, trouble is
We can't do this anymore
And if we did
It won't be like it was before
It's come to this
It's time to lay this burden down
Trouble is
We don't know how

Yeah, trouble is
We don't know how
