

Wasting Time Waitin'

Wade Bowen

No sense in wastin' time waitin'
For good luck to come your way
That ole early bird's gonna get it every mornin'
At least that's what the old folks say
No use in sittin' round complainin'
While that clock just keeps on tickin' down
And that sun keeps slowly fadin'
No sense in wastin' time waiting

There's always something you don't know
If you never been you oughta go
If ya got a question go on ask
Cause this life rolls by so fast
You should ask that girl to dance
Trust your cape and take a chance
If you love her tell her so
But if you hurt her let her go

No sense in wastin' time waitin'
For good luck to come your way
That ole early bird's gonna get it every mornin'
At least that's what the old folks say
No use in sittin' round complainin'
While that clock just keeps on tickin' down
And that sun keeps slowly fadin'
No sense in wastin' time waiting

We've all got fears we need to face
Dreams we still can chase
Prayers we oughta pray
I'm Sorry's we should say

No sense in wastin' time waitin'
For good luck to come your way
That ole early bird's gonna get it every mornin'
At least that's what the old folks say
No use in sittin' round complainin'
While that clock just keeps on tickin' down
And that sun keeps slowly fadin'
No sense in wastin' time waiting
And that sun keeps slowly fadin'
No sense in wastin' time waiting
