

# When It's Reckless

Wade Bowen

Like a rock through a stain glass window pane  
Baby I'm a candle, you're a hurricane  
Now I can't wait to be blown away  
And I get the feeling that you feel the same

Most people dream about a love that's safe and sweet and endless  
The kind that find forever in the magic of a first kiss  
But I like love a little rough around the edges  
I like it when it's reckless  
Yeah I like it when it's reckless

Like a car with no brakes running straight down hill  
Baby that's the way that you make me feel  
Scare the hell out of most, but I love the thrill  
So hop in honey, won't you come and take the wheel  
Take the wheel

Most people dream about a love that's safe and sweet and endless  
The kind that find forever in the magic of a first kiss  
But I like love a little rough around the edges  
I like it when it's reckless

Ooooh I love it when you shake me  
Love it when you break me  
Girl I got to have you now  
Set me on fire  
Build me up and burn me down

Most people dream about a love that's safe and sweet and endless  
The kind that find forever in the magic of a first kiss  
But I like love a little rough around the edges  
Yeah I like love a little rough around the edges  
I like it when it's reckless  
I like it when it's reckless  
I like it when it's reckless  
I like it when it's reckless
