

# You Ain't Got Me

Wade Bowen

You've gotten use to  
No one to hold you  
Maybe you're good at all alone  
You ain't pretending  
You're some helpless princess  
And you ain't waiting by the phone  
You got all you got on your own

Baby you think you  
Have it all, don't you  
Who am I to disagree?  
Ain't nothing missing  
By they way that your living  
And you got all you need  
Baby you ain't got me

I understand how  
You don't want no man now  
Coming around messing up your world  
You're going to hurt me  
But Baby don't worry  
Hurting is what this heart of mine is for  
Yea, always searching for something more

Baby you think you  
Have it all, don't you  
Who am I to disagree?  
Ain't nothing missing  
By they way that your living  
And you got all you need  
But Baby you ain't got me

Knocking at your door  
Begging you for more  
Of the laughter and the love we made  
I'll take everything you send my way

Baby you think you  
Have it all, don't you  
Who am I to disagree?  
There ain't nothing missing  
By they way that your living  
And you got all you need  
Baby you ain't got me  
No baby you ain't got me  
Baby you ain't got me
