

She Made It Look Easy

Wade Hayes

I let somebody break my heart, a long long time ago
I let em tear my world apart, just to watch them turn and go
I remember telling myself, a promise I made way back then
I'd never let nobody else, get close enough to do that again

And what I thought was impossible
Turned out to be unstoppable
It was magical it was natural like new life breathed in me
She brought healing to my life
Didn't even seem to try
It was nothing short of a miracle to me
And she made it look easy

There wasn't any lightning strike' no pounding down in my chest
There wasn't any butterflies, the moment that we first met
But I began to realize, how she put my soul at ease
You can't imagine my surprise, that love had a hold of me

And what I thought was impossible
Turned out to be unstoppable
It was magical it was natural like new life breathed in me
She brought healing to my life
Didn't even seem to try
It was nothing short of a miracle to me
And she made it look easy

She brought healing to my life
Didn't even seem to try
It was nothing short of a miracle to me
She made it look easy
