

# Breathe

Wafia

Take you down  
Take you slowly away  
Close your eyes  
Let me show you the way to my heart  
Feeling empty today  
My heart is feeling empty today

You take my, you're taking my breathe away  
You take my, you're taking my breathe away  
You take my, you're taking my breathe away  
You're taking my breathe away  
You're taking my breathe away

You're blacking out  
I see your silouette  
You taste like lies, jealousy and regret  
Always disguise how you hurt me within  
Somehow I like when you get under my skin

Let me take you down  
Take you slowly away  
Close your eyes  
Let me show you the way to my heart  
Feeling empty today  
My heart is feeling empty today

You take my, you're taking my breathe away  
You take my, you're taking my breathe away  
You take my, you're taking my breathe away  
You're taking my breathe away  
You're taking my breathe away

I'm not perfect  
I'm still searching  
Somewhere in between clubs and churches  
Somewhere in between parades and hearses  
So while I have you here in person

Let me take you down  
Take you slowly away  
Close your eyes  
Let me show you the way to my heart  
Feeling empty today  
My heart is feeling empty today

You take my, you're taking my breathe away  
You take my, you're taking my breathe away  
You take my, you're taking my breathe away  
You're taking my breathe away  
You're taking my breathe away
