

Crystal Ball

Wafia

If the fact is that we're not built to last
Then I don't wanna know it yet
It could fade to black, any car could crash
So I don't want to see the end

Ooh all this worrying about what the future holds
Has been holding me back from you
And I'm too scared to know
If the stars say we're doomed (oh)

If the writing's already on the wall
Why'd they say life's what you make it (make it)
If somebody showed me a crystal ball (crystal ball)
All I'd wanna do is break it (break it)
'Cause I wanna find out the hard way
How a heart breaks, oh
If somebody showed me a crystal ball
All I'd wanna do is break it

You can take my hand and forget our plans
We can dance all night in the rain
And if lightning strikes down on you and I
Then at least we went up in flames

Ooh all this worrying about what the future holds
Has been holding me back from you
And I'm too scared to know
If the stars say we're doomed (oh)

If the writing's already on the wall
Why'd they say life's what you make it (make it)
If somebody showed me a crystal ball (crystal ball)
All I'd wanna do is break it (break it)
'Cause I wanna find out the hard way
How a heart breaks, oh
If somebody showed me a crystal ball
All I'd wanna do is break it

Break it, break it, break it, break it
Break it, break it, break it, break it
Break it, break it, break it, break it
Break it, break it, break it, break it
Break it, break it, break it, break it

Ooh all this worrying about what the future holds
Has been holding me back from you
And I'm too scared to know
If the stars say we're doomed (break it, break it)
(Oh)

If somebody showed me a crystal ball
All I'd wanna, break it
Hmmmmmm, hmmmmmm (oh)

I wanna find out the hard way, heart breaks, hmmmm
Hmmmmmm, hmmmmmm (oh)
