

Dragonfly

Wafia

I hear a voice and it's asking me to follow it
Don't know where it's coming from but I trust what it says
Promises made it would land me in a better place
Yeah
Where a love exists and we're happiest
Something tells me this is worth the risk

'Cause all of the things I never had
Do anything until you have a soft place to land
Through all the trees
Over the sand
I'll search every sea
Until you have a soft place to land

Like when dragonflies migrate and know it's only for so long
Before it's time to pass it on
Time's limited, make the most of it
I'll do anything for you
Only want the best for you

'Cause all of the things I never had
Do anything until you have a soft place to land
Through all the trees
Over the sand
I'll search every sea
Until you have a soft place to land
