

Flowers & Superpowers

Wafia

I've been sitting here for hours
Trying to figure you out
But I get lost in the flowers
I'm really liking the sound
Of laying with you
Damn, the sky is so blue
I swear you got superpowers

If I don't wanna talk could we sit in silence?
And if I say way too much would you stick around?
And if I feel low, low, low could you take me higher?
If I get way too high would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?

Is this real life? Am I dreaming?
I feel a little bit sick
But I'm in love with this feeling
Can't look away from it
Staring at the clouds
Damn, this song is so loud
I swear you got superpowers

If I don't wanna talk could we sit in silence?
And if I say way too much would you stick around?
And if I feel low, low, low could you take me higher?
If I get way too high would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?

Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
Would you talk me down?
