

Something

Wafia

Meet me by the water at sunrise
We can sail into a pink sky
Maybe run into a new life

Only do it til it feels right
Baby take me a new high
I don't want it if it's not like this

'Cause the sun will shine and the flowers all blush
Baby I'm thinking this could be love
Where we are, it don't gotta mean too much
Long as it means something to me, ooh, ooh
Long as you feel something baby, ooh, ooh

Sleepy eyes we're living in a daydream
I lose hours when you touch me
Hazy, blending into memories
(Blend memories)

Is there a way to bottle up this feeling
Tie a knot and blow a kiss to seal it
Send it out to find us when we need it, oh

'Cause the sun will shine and the flowers all blush
Baby I'm thinking this could be love
Where we are, it don't gotta mean too much
Long as it means something to me, ooh, ooh
Long as you feel something baby, ooh, ooh

Usually I know how this starts and where it ends
But with you there's no destination
Coast far from the shore, see where we land
Don't have to know

'Cause the sun will shine and the flowers all blush
Baby I'm thinking this could be love
Where we are, it don't gotta mean too much
Long as it means something to me, ooh, ooh
Long as you feel something baby, ooh, ooh
(Long as it means something)
