

# Wide Open

Wafia

Looks like you're running  
Never saw it coming  
You sitting me down, it's like you've planned it, mm  
How are you breathing (ooh-oo)  
Knowing I'll be leaving?  
Pushing me out without a reason, mm  
The way that you're speaking  
And keeping your distance  
It's cutting a hole inside of me  
I've given you all of me  
My body is frozen  
I'm stuck in this moment  
You're cutting a hole inside of me  
I've given you all of me

I could've let this scar  
Make me hard and unemotional  
But I don't want to

I keep my heart open  
And I hold onto the hope  
Even though we're broken  
I'm moving on wide open, oh, ooh-whoa, ooh-whoa, ooh-whoa, oh  
I keep my heart wide open

I was hoping for a fight  
Wishing that you would just come down  
And tell me I'm right  
Beg me to rethink my choice  
Beg me to rethink my mind  
All the years that I need you to make me feel fine

Could've let this scar  
Make you hard and unemotional  
But I don't want to

Sego  
Cutting you off was not so easy  
Shut it down  
Give me a break, I've been waiting for so long (long, long, long)  
Was keeping my distance, I wasn't working  
Didn't think I could provide, your love  
But that hole in my wallet made a hole in my heart  
Baby, can we restart? Ah-ah-ah  
Can I be waiting for my big break?  
I just want your embrace

I keep my heart open  
And I hold onto the hope  
Even though we're broken  
I'm moving on wide open, oh, ooh-whoa, ooh-whoa, ooh-whoa, oh  
I keep my heart wide open
