

Oh what a mess we've made
To Hell with the love
Just keep breeding the hate
It doesn't matter what is true what is right or just
Never sleep, never think, no, we'll never trust
Outrage, fed up with the system
Outbreak, everybody is a victim
Enslaved and we think we're free

But all I see is violence
But I can't just sit and watch in silence
I think it's time that we take back what we lost
No matter the cost
We're branded by disdain
There's nothing to gain

Go!

I'm not the one to be all political
But it's a problem when everyone's hypocritical
You can't lead if you can't admit you're wrong
Our innocence is gone
I can't read the headlines
Another murder in the streets, he was only 9
God are you listening?

Cause all I see is violence
But I can't just sit and watch in silence
I think it's time that we take back what we lost
No matter the cost
We're branded by disdain
There's nothing to gain

Think for yourself and nobody else
We can't trust the lies we're fed
Or we're all as good as dead
All as good as dead
Dead
