## Wage War

Godspeed

Manipulated, got a way with lies that stole my trust  
So you could throw me in the fire that you built for us

You paralyzed the best in me  
So all I'd feel is misery

You tried to  
Bend me till I break  
Bend me till I break, breakdown  
Put me in the grave  
Put me in the grave, facedown  
Lying if I said  
Wish you well ahead, I'm done now  
Yeah, here's to you and me  
So long, godspeed

You're hanging on to pieces shattered like shards of glass  
Pull 'em closer 'cause you know you'll never get them back  
If I never see your face again, that's too soon  
This is overdue

You tried to  
Bend me till I break  
Bend me till I break, breakdown  
Put me in the grave  
Put me in the grave, facedown  
Lying if I said  
Wish you well ahead, I'm done now  
Yeah, here's to you and me  
So long, godspeed

You paralyzed the best in me  
So all I'd feel is misery  
You paralyzed the best in me  
But I survived  
And now you're dead to me  
And now you're dead to me

You tried to  
Bend me till I break  
Bend me till I break, breakdown  
Put me in the grave  
Put me in the grave, facedown  
Lying if I said  
Wish you well ahead, I'm done now  
Yeah, here's to you and me

You tried to  
Bend me till I break  
Bend me till I break, breakdown  
Put me in the grave  
Put me in the grave, facedown  
Lying if I said  
Wish you well ahead, I'm done now  
Yeah, here's to you and me

Enjoy the misery  
Godspeed
