

Hellbent

Wage War

One by one I've been running out of vices
Too many prayers that never made it past my eyelids
Hold me under holy water, drown the virus
The only enemy is the inner me
The only enemy is the inner me

I need a reason, something to believe in
Someone to save me from myself
I'm broken and shattered, I've been a disaster
Only a miracle can help
Is it all by design? A figure of fate?
Will you give me a sign before it's too late?
I need a godsend 'cause I've been hellbent

Waking up inside another lucid nightmare
The devil knows me 'cause I'm spendin' too much time there
I'm a fighter but my demons never fight fair
I'm on my last prayer

I need a reason, something to believe in
Someone to save me from myself
I'm broken and shattered, I've been a disaster
Only a miracle can help
Is it all by design? A figure of fate?
Will you give me a sign before it's too late?
I need a godsend 'cause I've been hellbent

The only enemy is the inner me
The only enemy is the inner me
The only enemy is the inner me
Don't let the inner me be the end of me
(The only enemy is the inner me)
(The only enemy)

I need a reason, something to believe in
Someone to save me from myself
I'm broken and shattered, I've been a disaster
Only a miracle can help
Is it all by design? A figure of fate?
Will you give me a sign before it's too late?
I need a godsend
I need a godsend
I need a godsend 'cause I've been hellbent

(I need a godsend 'cause I've been hellbent)
(I need a godsend 'cause I've been hellbent)
