## Wage War

Dance on the grave, five nails in the casket  
Bones lay to waste, let 'em rot with the mag-ag-ag-ag  
Dance on the grave, five nails in the casket  
Bones lay to waste, let 'em rot with the maggots

I don't really wanna talk about it  
I did everything I could but there's no way around it  
If you're looking for the long way, you finally found it  
Yeah, you finally found it  
If you're searching for a sign, here's a song about it  
(And it go)

Dance on the grave, five nails in the casket  
Bones lay to waste, let 'em rot with the maggots  
Dance on the grave, five nails in the casket  
Bones lay to waste, let 'em rot with the maggots

Let 'em rot with the maggots!

No one's safe  
It's a bitter betrayal  
A feast for the weak  
Full seats at the table  
But in case  
Pieces fall like the rest  
So if you punch first  
You won't like what comes next

Dance on the grave, five nails in the casket  
Bones lay to waste, let 'em rot with the mag-ag-ag-ag  
Dance on the grave, five nails in the casket  
Bones lay to waste, let 'em rot with the maggots

Dance on the grave, five nails in the casket  
Bones lay to waste, let 'em rot with the mag-ag-ag-ag  
Dance on the grave, five nails in the casket  
Bones lay to waste, let 'em rot with the maggots

Ah!

Let 'em rot, let 'em rot, oh!

It's your move  
If you try  
I got a whole lot packed to deliver from  
If you choose (you choose)  
This time (This time)  
I got a white knuckle grip and an axe to grind, oh!

Eeeeeehhhh!
