

## Prison

## Wage War

Feels like I'm caught in a whirlwind inside my head  
I'm my own natural disaster beneath my skin

I can't explain  
And you just won't get it  
I can't numb the pain  
It's all I think about

I can't explain  
And you just won't get it  
I can't numb the pain

I'm too deep to believe I can face myself  
It's hard not to give up when you go through hell  
Woah oh oh, oh oh oh  
I'm trapped in my skin, this is my prison

Behind the bars I create for myself  
No one else to blame  
Alone and helpless I'm tied to all this  
Living in my chains

I can't explain  
And you just won't get it  
I can't numb the pain

I'm too deep to believe I can face myself  
It's hard not to give up when you go through hell  
Woah oh oh, oh oh oh  
I'm trapped in my skin, this is my prison

I can't explain  
And you'll never get it  
So tell me what's the point now

I can't explain  
And you just won't get it  
I can't numb the pain  
(Numb the pain)

I'm too deep to believe I can face myself  
It's hard not to give up when you go through hell  
Woah oh oh, oh oh oh  
I'm trapped in my skin, this is my prison  
I'm trapped in my skin, this is my prison

This is my prison
