Waka Flocka Flame

I said it's early in the morning and I'm still in the studio
Tryina cook my next hit single, catch a movie role
Know a nigga wining when you get 50 K
Getting money three ways, I can never see a rainy day

I said it's early in the morning and all I see is money
when I'm yawning, nigga
I said it's early in the morning and I'm still in the studio
Tryina cook my next hit single, catch a movie role
Know a nigga wining when you getting 50 K
Getting money three ways, I can never see a rainy day
Millions of my word play, pray every chance I get
Bullshit irrelevant, narcotics, I be selling it
In the hood kicking shit, drinking beers, gangsta shit
Never let these hating niggas take me on my element
They say my flow heaven sent

Every chance I get man, I'm a fucking smile,
Even if they try to knock me on the ground
Every chance I get I'm a smile even if they try to
knock me on the ground
I'm a smile
Even if I don't wanna
I'm a smile
Even if I don't wann
I'm a smile
Never let you see me frown, never could you hold me
down

Drag on my pocket, now there's unity, respect each
other
Love a friend like a brother dog, all I know is loyalty
Dug the penitentiary, my niggas move a quarterly
Success, I hear it calling me, my downfall, bitch, you
wanna see
But unfortunately, I'm a fucking smile every chance I
get
Never let a person's words take me on my element
Them lies, I ain't buying it, so ain't no need for
selling it
When you push me down on the ground ain't gonna frown
I'm a motherfucking smile

Every chance I get man, I'm a fucking smile
Even if they try to knock me on the ground
I'm a smile
Every chance I get I'm a smile
Even if they try to knock me on the ground
I'm a smile
Even if I don't wanna, I'm a smile
Even if I don't wanna, I'm a smile
Never let you see me frown, never could you hold me
down
