

# Around

Wakefield

You need the ground  
You needed face down  
I tried to tell you this  
I hit you back  
There was no impact  
The smarter you are  
The harder it is

[chorus]  
And there's no use calling out  
I'm making my way out  
Cause when you hit the pavement  
I don't wanna be around  
Whatever who you're climbing out  
I know you're all back down  
And nothing i can do will save you  
So i don't wanna be around

Already done  
Burning since day one  
You have taken this to far  
You forced it down  
Like it's something bad now  
But i don't mind  
It's what you hide inside

[chorus]  
And there's no use calling out  
I'm making my way out  
And i'm not gonna blame you  
But i don't wanna be around  
Whatever who you're climbing out  
I know you're all back down  
And nothing i can do will save you  
So i don't wanna be around

[bridge]  
When everything is rattling  
What you bring will det-toe-nate us all  
Det-toe-nate us all  
She turned it off  
Had enough  
Find the pulse  
Don't you let it fall  
Don't you let it fall  
I don't wanna be around

[chorus]  
And there's no use calling out  
I'm making my way out  
Cause when you hit the pavement  
But i don't wanna be around  
Whatever who you're climbing now  
I know you're all back down  
And nothing i can do will save you  
So i don't wanna be around

Leave you  
I don't wanna be around (2x)

When everything is rattling  
What you bring  
I don't wanna be around  
Had enough  
Give it up  
Your just stuck  
I don't wanna be around
