

Difficult Times

Wakey!Wakey!

You and me in sweat-soaked sheets
Two angels made to meet
I'll never die if you'll never die
I wanna see where you see when you look at me
I'm better [?]
I'm better when I'm face to face
You and me can save the world
And never even leave my place

'Cause we're alive in difficult times
There's always gonna be next week
Once you're alive in difficult times
You'll never ever be the same
I don't wanna be the same

We cover all the windows
We even stop watering the dirt
They're tearing down the house next door
Wakes me up every morning and it hurts
And everything's changing
Maybe I'm changing too
I don't know what I'm becoming
But I'm hoping that it works for you

'Cause we're alive in difficult times
There's always gonna be next week
Once you're alive in difficult times
You'll never ever be the same

[?]

Passes over
Can you feel us
Getting close

'Cause we're alive in difficult times
There's always gonna be next week
Once you're alive in difficult times
You'll never ever be the same

'Cause we're alive in difficult times
There's always gonna be next week
Once you're alive in difficult times
You'll never ever be the same
I don't wanna be the same
