Wale

Dearly be – dearly beloved  
Dearly be – dearly beloved  
Dearly be – dearly beloved  
Don't forget  
Dearly be – dearly beloved  
Dearly be – dearly beloved  
Dearly be – dearly beloved  
Don't forget

Hmm, love  
I'm bout to spark  
No, she don't love me no more  
Ain't even funny no more  
She had to move on  
To someone who got what she need  
I only got what she want  
Hope you covered in diamonds today  
Hope you don't question the time and the day  
Hope that you know that your mama ain't like me and that's why  
I' probably not by you today  
Dearly beloved was lucky to love you but I ain't recovered yet  
So maybe I'm jealous but slim in that tux doesn't look like a l  
evel up  
I think there is pressure, your sister is young and she chillin  
, she settled up  
So you gonna sell yourself short of perfection and get you a go  
od enough  
I got too lazy pursuing you, stopped chasing  
I just called you at 2 a.m., complicated  
Immature and confused  
'Cause I want you but don't know what to do with ya  
But you beloved  
And truly deserve better  
Let me ask somethin', do you want him or forever wit him  
What's the difference?  
Don't forget it

Dearly be – dearly beloved  
Dearly be – dearly beloved  
Dearly be – dearly beloved  
Don't forget  
Dearly be – dearly beloved  
Dearly be – dearly beloved  
Dearly be – dearly
