

## Gemini (2 Sides)

Wale

Something out of a fairytale  
The fairest of them all but you're scary still  
What I've never seen before is this composure you possess  
Poised gettin' coins but you know that you're the shit  
Though you always on the fence with me  
Gemini women they switch up the vibe with ya  
Don't try holdin' her hand she probably hi-five a nigga  
Tried to figure you out but you're kinda tricky  
Irony you like attention but hide your feelings  
Hi, I'm a virgo with trust issues  
And I, think that mercury is fuckin' with you  
And I, think that purposely flirtin' with ya isn't working  
I'm searchin' to find your person you just hurtin' my pride  
My gemini, now is you mine, or a mirage?  
A gemini is the only sign with double sides  
So if she give it to me now w'ell be a menage

One queen, two sides, one me, woosah yeah  
Whole time, you a whole vibe, we can both shine, gemini, yeah  
One queen, two sides, one me, woosah yeah  
Whole time, you a whole vibe, we can both shine, my gemini, yeah

Hide all you fears and smile at all of your friends  
Suppress whatever troubles you because you bothered with theirs  
I guess some other time I can try and make it legit  
But I am chasing a twin that would rather chase a career  
It's love, I respect you it was just can't accept what you say  
When you don't say what you does  
And I ain't sayin' nor do I care who was there when I'm not  
I'm just sayin' I truly care how you carry your heart  
Shine baby you are spontaneous, smart  
Easily get bored frequent change is the bomb  
My emotional nomad, of course she be going bad  
So why would I toe-to-toe if I know it's a toe tag  
Just know that horoscopes is horror scenes to me  
Believe what you seein' is bound to be in your dreams  
My social butterfly she don't empathize for the weak  
If she and I one of two I must humble the one of three

One queen, two sides, one me, woosah yeah  
Whole time, you a whole vibe, we can both shine, gemini, yeah  
One queen, two sides, one me, woosah yeah  
Whole time, you a whole vibe, we can both shine, my gemini, yea  
One queen, two sides, one me, woosah yeah  
Whole time, you a whole vibe, we can both shine, gemini, yeah  
One queen, two sides, one me, woosah yeah  
Whole time, you a whole vibe, we can both shine, my gemini, yea  
One queen, two sides, one me, woosah yeah  
Whole time, you a whole vibe, we can both shine, gemini, yeah  
One queen, two sides, one me, woosah yeah  
Whole time, you a whole vibe, we can both shine, my gemini, yea
