And I'm so tired, yeah, all I need is good vibes  
Shit ain't right on this side, yeah  
All my niggas dying and that president be lying  
I got za up in this RAW I wanna fly  
Put the zaza in the sky  
Shit ain't right on this side, yeah  
All my niggas dying and that president be lying  
I got za up in this RAW I wanna fly (Ayy, look)

Losing my cool, I'm losing my patience  
You using your stimulus just to lose it in Vegas  
I see a lotta APs, I see a lotta Rolexes  
I'ma buy 'em off of these niggas right after the 'demic  
I can show you a style, I can show you while rapping  
After all this shit that happened, though, we gotta be brothers  
Katt Williams said "We good", man, we better than that  
But we get shot and nothing happens, how we settle for that?  
You see, my culture expensive, that's why they pander to us  
It be you Terry Crews niggas tap dancing for that  
I never let nobody lesser treat me lesser than them  
You can't have no Mr. Chow's eatin' Panda Express  
I'm burning sage in the studio 'fore I let niggas in  
I leave my weapon by the speakers so they hearing me clear  
I mean the money be cool, I did amazing this year  
I mean, I'm famous, but I'm drained, I need some prayer for real, a nigga ti  
red

And I'm so tired, yeah, all I need is good vibes

Yeah, you know, slick as El Gato  
Don't worry 'bout the kicks, nah, slim, you ain't got those  
Rest in peace Ermias and Pop Smoke  
I pray you keep some fire and some Palo Santo  
The capital, the city was made of chocolate  
I seen the Capitol building full of a bunch of rioters  
Looters and super white people that was getting too rowdy  
You do that and you Black, they gon' clap you and hug your mommy like  
Cool story, whole country been cold blooded  
Tell Tammy Lawrence and Candice O'Neal it's nothing  
And patriotic energy iffy in '21 'cause  
2020 showed me my vision was truly blurry  
I'm tired, I'm fried, we all need a reset  
Akata or Naija, I always been a reject  
I always been a lot of things, but none of them a weakling  
But everything a lot, I hope you spark 'em when you singing, like

And I'm so tired, yeah (Good vibes), all I need is good vibes  
Shit ain't right on this side, yeah
