

# Live Forever

Wale

Oh-oh-oh  
Oh-oh-oh  
Oh-oh-oh  
Oh-oh-oh

I got so much to live for  
So much to share  
Could take a look in the mirror  
And there's no one else to care  
I got so much to live for  
So much to give  
I don't care if we take forever  
Forever I'll live

See my future in my daughter's eyes  
And at 45, woulda thought of making my daughter cry  
It's real hitters in the district that know me the best  
Grew up with some men that's homeless and smoking that wet  
Hoping they closer to death  
I'm totally over focused and don't you forget  
The so-and-so's they put over me, know I'm the best  
I'm blessed with the bars, shawty this is God work  
I made some A&Rs rich off of hard work  
They killing men and they innocent but they killing many  
That badge of honor just not enough to conceal they feelings  
They offing all us that's just what I'm a tell my daughter partner  
Study in school, watch out for cooties in the law department  
Hey, I coulda kept my scholarship but hey  
And I could have been a robber couldn't I have? Yeah  
A 4.5 40, or a 45 40, either way I run for my defense

I got so much to live for  
So much to share  
Could take a look in the mirror  
And there's no one else to care  
I got so much to live for  
So much to give  
I don't care if we take forever  
Forever I'll live

Another bragger, money don't make ya boy  
And lil Chad struggle with makers boy  
So I ain't waiting for no reparations  
Man who got the patience  
Just pay attention, I make my statements, boy  
Well, you young and black, you may be lacking motivation  
Unless you run or shoot a basket, women out here naked  
1 in every 20 of 'em doing good though  
That's not a stat, that's actually out my phone book  
And I pray tonight night because they hate us and know it  
I'm a pray tonight homie my lil baby don't know it  
I'm a hold on tight homie for every weapon they folding  
How can all lives matter if it's only brothers that's mourning?  
Haah, yeah  
BLM till we see the end  
See I was sort of sleeping until I seen the debt man  
Numbers exceed the limit

And now I see it different  
Ain't willing to die for it? At least breathe it in

I got so much to live for  
So much to share  
Could take a look in the mirror  
And there's no one else to care  
I got so much to live for  
So much to give  
I don't care if we take forever  
Forever I'll live

I got so much to live for  
So much to share  
Could take a look in the mirror  
And there's no one else to care  
I got so much to live for  
So much to give  
I don't care if we take forever  
Forever I'll live
