

# Lonely

Walk Off the Earth

I wanna ride with you 'til the wheels fall off  
'Til we're running out of road  
I wanna dance with you 'til the music stops  
'Til we got no place to go

Everybody needs a place to hide  
This don't have to be a bumpy ride  
I think we should be alone tonight  
'Cause we don't have to be lonely  
Everybody needs some company  
Let's talk about it over one more drink  
I think you should be alone with me  
'Cause we don't have to be lonely

We don't have to be lonely, lonely  
Don't have to be lonely  
Don't have to be lonely  
Don't have to be lonely

I wanna ride with you 'til the world stands still  
Like there's no one else but us  
I wanna dance with you 'til we can't stand up  
'Til we both give in to love

Everybody needs a place to hide  
This don't have to be a bumpy ride  
I think we should be alone tonight  
'Cause we don't have to be lonely  
Everybody needs some company  
Let's talk about it over one more drink  
I think you should be alone with me  
'Cause we don't have to be lonely

We don't have to be lonely, lonely  
Don't have to be lonely  
Don't have to be lonely  
'Cause we don't have to be lonely  
We don't have to be lonely...

I wanna ride with you 'til the wheels fall off  
'Til we're running out of road
