

# I Hope You Miss Me

Walker Hayes

Hope you made it out west safe and sound  
Hope your Honda didn't break down  
And you took time to walk around  
Joshua Tree  
Small towns ain't stupid, you know  
I always knew you would go  
People like you don't get old  
With people like me (No they don't)

I hope you're living out by the ocean  
That's where you always said you were goin'  
LA baby on Sunset Drivin'  
City of angels, you should fit right in  
You want the part, baby, go get it  
Can't wait to see your name in those credits  
Hope you find yourself but selfishly  
I hope you miss me

Oh, oh-oh, oh, oh-oh (Ooh, ooh)  
Oh, oh-oh, oh, oh-oh (Ooh, ooh)  
I hope you miss me (Ay)

I hope you don't get homesick one time  
And it's all callbacks and sunshine  
And you find someone to run lines  
With while you learn 'em (While you learn 'em, while you learn 'em, while you learn 'em)  
I hope you run in to your girl crush J.Lo  
While you shoppin' on Rodeo  
And she cool as you always hoped she'd be in person

I hope you're living out by the ocean  
That's where you always said you were goin'  
LA baby on Sunset Drivin'  
City of angels, you should fit right in  
You want the part, baby, go get it  
Can't wait to see your name in those credits  
Hope you find yourself but selfishly (Ay)  
I hope you miss me

Oh, oh-oh, oh, oh-oh (Ooh, ooh)  
Oh, oh-oh, oh, oh-oh (Ooh, ooh)  
Selfishly

And when you finally get that star (Finally get that star)  
On Hollywood Boulevard (On Hollywood Boulevard)  
Just remember I called it on the hood of your car (Hey)

I hope you're living out by the ocean  
That's where you always said you were goin'  
Ay, if it's the city of angels, you should fit right in  
You want the part, baby, go get it (Go get it)  
Can't wait to see your name in those credits  
Hope you find yourself but selfishly (Ay)  
I hope you miss me

Sometimes it's stupid, you know

I always knew you would go  
People like you don't get old  
With people like me (I hope you miss me)  
Sometimes it's stupid, you know  
I always knew you would go  
People like you don't get old  
With people like me (I hope you miss me)
