

One, Two

Walker Hayes

I said one, two-step, baby, that was all it took
Dropped a smile and my heart was hooked
Yeah, I could read the whole damn book
From chapter one
Tuesday night we were in your car
Lookin' through the moon roof at the stars
Said, "Forever," How'd we get so far from that word?
One, too many nights tryna make it work
One, too many fights we both got hurt
One, too many teardrops in the dirt

Hey
Baby, I've been livin' down in Decatur
Tryna make us work on paper
It's 'bout all I do
Yeah, maybe we were kinda like snow in summer
We don't add up like numbers
But I still want the one to be you

I said one, two am last drunk dial call
Hopin' that your ringer ain't turned off
I know it's late, but, baby, I just called to say I'm only one
200 mile Uber ride away
It ain't cheap, but, hell, I'd still pay
Anything just to see your face by morning

Baby, I've been livin' down in Decatur
Tryna make us work on paper
It's 'bout all I do
Yeah, maybe we were kinda like snow in summer
We don't add up like numbers
But I still want the one to be you, girl

I don't want nothin' new girl
Hope you miss me too, girl
Yeah, I still want the one to be you, now

Baby, I've been livin' down in Decatur
Tryna make us work on paper
It's 'bout all I do
Yeah, maybe we were kinda like snow in summer
We don't add up like numbers
But I still want the one to be you
