

Shades

Walker Hayes

Hey, where my shades at? You know, the fly ones
Hide the hazy in my eyes when I'm high ones
Mirror tint, girl, so you can see my world
When I kiss you on a flip of a dip and a twirl
On the dance floor, darling, tell me there's a chance you're
In the mood to shake it with a fake it 'til you make it kinda cat
Hey, where my shades at? Hey, where my shades at?

Let's take a trip above the satelllites
Around the moon in my sunglasses at night
We gon' light it up, up, up so bright
Said even the stars gon' be like, even the stars gon' be like
"Where my shades at?" Yeah, they gon' say that

Where my shades at? You know, the gold ones
Look like I just stepped out of my Rolls ones
Darkest pair that I got, baby, you so hot
Make the sunshine wanna put on sunblock
Chandeliers bow down and city lights leave town
Wherever you go cause they know
They ain't never gonna shine like that
Hey, where my shades at? Yeah, where my shades at?

Let's take a trip above the satelllites
Around the moon in my sunglasses at night
We gon' light it up, up, up so bright
Said even the stars gon' be like, even the stars gon' be like
"Where my shades at?" Yeah, they gon' say that
Hey, where my shades at?

Come on
Girl, you already look famous
I'mma have to step up my game if I'mma hold your hand for real
I better at least look like I'm a big deal
Feel so high profile in 'em
You know you love it, love it, love it when I smile in 'em
Hey, why you laughing?
You know what happens when I rock 'em
Hey, where my shades at? Seriously, where my shades it?
Where my, where my, where my shades at?

Let's take a trip above the satelllites
Around the moon in my sunglasses at night
We gon' light it up, up, up so bright
Said even the stars gon' be like, even the stars gon' be like
"Where my shades at?" Yeah, they gon' say that
Hey, where my shades at?

Come on, babe
Hey, where my shades at?
So high profile in 'em
You know you love it, love it, love it when I smile in 'em
Hey, where my shades at?
Where my, where my, where my shades at?
