

U Gurl

Walker Hayes

We sit out there on that porch swing
It don't phase you that it's pouring rain
And I kinda like that you ain't afraid
To get mud on your boots
Get sideways to that George Strait
Keep backing up that tailgate
Trucker hat, hundred proof

Guys like me like girls that look like you girl
Cherry bottom boom girl
Every shade of blue jeans look mean with a body like that
Oh woo girl
Southern through and through girl
Do what you do girl
Guys like me like girls that look like you girl

So the way you walk is suggestive
Strip mall town impressive
Girl I hate to see you go (hold up)
But I love to watch you exit
All flames where you cookin' at
That bourbon kiss where you putting that
I know it's rude to stare, but shoot
I don't wanna stop looking at

You girl
Cherry bottom boom girl
Every shade of blue jeans look mean with a body like that
Oh woo girl
Southern through and through girl
Do what you do girl
Guys like me like girls that look like you girl

Guys like me like girls that look like you girl

Brown eyes like two hurricanes
Lasso me with them hoop earrings
Moving me with the way you move

Guys like me like girls that look like you girl
Cherry bottom boom girl
Every shade of blue jeans look mean with a body like that
Oh woo girl
Southern through and through girl
Do what you do girl
Guys like me like girls that look like you girl

Guys like me like girls that look like you girl
Guys like me like girls that look like you girl
