

## What You Don't Wish For

Walker Hayes

Ay, people think I'm crazy  
And sometimes I believe 'em  
Ain't the best singer in the world  
But I can't stop singing  
Back home said face it, you ain't got what it takes  
Hate to say it, but them dreams will just make you  
Wish you'd never left town  
To chase 'em

Well, whether I make it or fake it  
Till my heart can't break no more  
This one's for

All the kids with guitars, looking up at the stars  
Dream as far as your heart can dream  
Write a song make some noise, danger's real but fear's a choice  
They say careful what you wish, but I say be more...  
Careful what you don't wish for

Ay, right here with my baby  
Is right where I'm home  
Picking these six strings  
Working on another country song  
No, I ain't making no dollars and I ain't making no sense  
And the odds are not really a gambler's friend  
Might bend but I won't fold now  
Yeah, this one's going out to

To all the kids with guitars, looking up at the stars  
Dream as far as your heart can dream  
Write a song make some noise, danger's real but fear's a choice  
They say careful what you wish, but I say be more...  
Careful what you don't wish for

Sometimes I hate how much I love this game  
'Cause it just makes me make a fool out of myself  
But y'all I'd rather die crazy than live to wonder, what if may  
be I'd  
Thrown another penny in that well, and I'll always tell

All the kids with guitars, looking up at the stars  
Dream as far as your heart can dream  
Write a song make some noise, danger's real but fear's a choice  
They say careful what you wish, but I say be more...  
Careful what you don't wish for
