

# Shattered

## Walking with Strangers

A sickness lies over the world  
It's blinding us leaving us speechless  
The world is shattered, it's up to us to pick up the pieces

The poison of men  
Who believe they stand taller than the rest  
The poison of men  
Is coursing through the veins of the earth

(The poison of men is coursing through the veins of the earth)

They will never understand  
They will never silence our hope

They will never understand what it takes to be a man

A sickness lies over the world  
It's blinding us leaving us speechless  
The world is shattered, it's up to us to pick up the pieces

It's time to change everything about our existence

When all the rivers have run dry  
When the sky is filled with guilt  
When all the trees have died  
You'll know what you've done wrong

But you are too late  
Now live the rest of your life knowing this

You are the reason for it all  
There's no going back

A sickness lies over the world  
It's blinding us leaving us speechless  
The world is shattered, it's up to us to pick up the pieces
