

# Untouchables

## Walking with Strangers

Push them down  
Under the ground  
Don't let them get to you  
Make a small incision  
Just enough to give you vision

I hold the key  
And while they try to make you blind,  
I'll make you see

Hold them down

I hold the key  
And while they try to make you blind,  
I'll make you see

Hold them down

From the day you were born  
Til' the day you die  
(We'll have your back)  
While life passes by

They're not even close,  
We're the untouchables

They tell you how to live  
They show you what to do  
They blind you with their visions of the truth

I hold the key  
And while they try to make you blind,  
I'll make you see

Hold them down

I hold the key  
And while they try to make you blind,  
I'll make you see

Hold them down

From the day you were born  
Til' the day you die  
(We'll have your back)  
While life passes by
