

Hurry Babe

Wallace

Running out of time
Yeah I'm always late
Chasing the clock
And it's getting away
All these plans
Always rushing around
Give me a reason
And I'll try and slow down (I'll try I'll try)

(You can take my time baby, wanna spend it with you
You can take my time baby, wanna spend it with you
You can take my time baby, wanna spend it with you
You can take my time baby)

In the blink of an eye
Youth fades in a flash
The more I resist
The harder I crash
All this pressure is building
It's about to explode
Take a deep breath and get this show on the road
I gotta go I gotta

You said "Why are you in such a hurry, babe?"
You said "Why are you in such a hurry, babe?"

As soon as I wake up
Look at my body
I know I should probably
Go to Pilates
Told my friend Rita
Maybe I'll come meet ya
We can do lunch
I know it's been so long

Planned out my day
Am I doing too much?
I know I should slow down
But I'm in a rush
Friend of a friend
Is having a show
I know I just got here
But I'm ready to go (Let's go, let's go)

(You can take my time baby, wanna spend it with you
You can take my time baby, wanna spend it with you
You can take my time baby, wanna spend it with you
You can take my time baby, you can take my time baby)

You said "Why are you in such a hurry, babe?"
You said "Why are you in such a hurry, babe?"
You said "Why are you in such a hurry, babe?"
Do you know why are you in such a hurry babe?
Don't you worry babe

(You can take my time baby, wanna spend it with you
You can take my time baby, wanna spend it with you

You can take my time baby, wanna spend it with you
You can take my time baby, you can take my time baby)
