

## Prepaid Wireless

Wallice

I'm laying in bed  
Too in my head  
Going on three days motionless  
Room is a mess  
Loneliness crushing  
I got too much to do  
Too much to lose  
Close my eyes and think of you  
Think I'll just lay here and do nothing

I wish I could make stay  
Don't wanna get in your way  
Without you, I feel so out of control  
Emotionally unstable

Somebody save me  
All of the things I loved are changing  
It's like a bad daydream  
Where I'm driving and the brakes are cut  
And tell me  
Why is everyone leaving?  
I just stare at the ceiling  
I don't know  
And I don't know what I'm doing here

Time is moving too fast  
Still stuck in the past  
Like when I had prepaid wireless  
Some things don't last  
Wish I saw it coming  
We never finished season seven  
Wish we could talk about the ending  
And we never drove down to Mexico  
We said we would but we just stayed home

I wish I could make stay  
Don't wanna get in your way  
Without you, I feel so out of control  
Emotionally unstable

Somebody save me  
All of the things I loved are changing  
It's like a bad daydream  
Where I'm driving and the brakes are cut  
And tell me  
Why is everyone leaving?  
I just stare at the ceiling  
I don't know  
And I don't know what I'm doing here
