

# Anytime, Always

Wallows

I only need a shoulder to cry on, cry on  
So please would you leave me a light on, light on?  
And I'll come by when you don't mind  
But not if it'll only waste your time

Well, you can call me anytime, always  
You can call me anytime, always  
You can call me anytime, always  
You can call me anytime

I hope you whisper close when you lean in, lean in  
And please give me some kind of reason, reason  
To let go of this state of mind  
That the only time I waste is mine

Well, you can call me anytime, always  
You can call me anytime, always  
You can call me anytime, always  
You can call me anytime

Can't think of the last time that I truly smiled  
Till you looked up at me, could you stay a while?  
Let's look back on past times, the good and the bad  
Let's make up the best years you and I have ever had

Can't think of the last time that I truly smiled  
Till you looked up at me, could you stay a while?  
Let's look back on past times, the good and the bad  
Let's make up the best years you and I have ever had

You can call me anytime, always  
You can call me anytime, always  
You can call me anytime, always  
You can call me anytime, always

You can call me anytime, always  
You can call me anytime, always  
You can call me anytime, always  
You can call me anytime
