

Deep Dive (Reprise)

Wallows

I hope that you know
I hope that you know

Deep dive into my mind
You've been on it for some time
I've seen your silhouette
It's been doing pirouettes
Moves like a thunderstorm
Raindrops made of chloroform
I think it's flooding in
Can you feel it?

I hope that you know (I will never run your heart around)
I hope that you know (I will never ever let it drown)
I hope that you know (If you're ever lost, you will be found)
I hope that you know (I will never ever let you)

You know I'd never wanna leave you stranded
Not even if the tide is rising on us
You know I'd never leave you empty-handed
And I'll be here whenever, I'll be honest

Drowned in the shallow end
While you were across the bend
I've seen you all along
Where the sun would set upon
Come stay, we'll stay up late
We could lean into the fate
It's been speaking to us
Can you hear it?

I hope that you know (I will never run your heart around)
I hope that you know (I will never ever let it drown)
I hope that you know (If you're ever lost, you will be found)
I hope that you know (I will never ever let you)

I hope that you know
I hope that you know
I hope that you know
I hope that you know
