

Deep Dive

Wallows

I hope that you know
I hope that you know

Deep down into my mind
You've been on it for some time
I've seen your silhouette
It's been doing pirouettes
Moves like a thunderstorm
Raindrops made of chloroform
I think it's blinding you
Can you feel it?

I hope that you know (I will never run you all around)
I hope that you know (I would never, I won't let it drown)
I hope that you know (If you're ever lost you will be found)
I hope that you know (I would never, I won't let you go)

You know I never wanna leave you stranded
Not even if the tide is rising on us
You know I never leave you empty handed
And I'll be here whenever, I'll be honest

Drowned in the shower, wet
While you were across the bed
I've seen you on the lawn
Where the sun would set upon
Come stay, we'll stay up late
We could lean into the fate
It's been speaking to us
Can you hear it?

I hope that you know (I would never run you all around)
I hope that you know (I would never, I can't let it drown)
I hope that you know (If you're ever lost you will be found)
I hope that you know (I would never, I won't let you)

I hope that you know
I hope that you know
I hope that you know
I hope that you know
