

Drunk On Halloween

Wallows

I know where you've been
Don't try to act like I don't know you
And all the words you don't hear
They always find a way back to you now

Say a new day has dawned
But we no longer get to
Cause I know the truth
The leaves are all gone
So who's moving on?
I know the worst is to come

On that Halloween you told me
You weren't drinkin'
I believed you
Now the only time I have's to
Sit and wonder
If you're thinkin'
About the fun
You've had with someone else
I know the truth
Is wasted on you

I know what you wanted
Under the lies
You take 'em and find a way
To run out the door now
Back to a time that you tried to forget

Why's the music so loud
Take it to the lawn now
Did you think about me if I ever were to find out?
Can you ease the pain with drinkin' all night?
Guess you'll never know the answer if you never try

On that Halloween you told me
You weren't drinkin'
I believed you
Now the only time I have's to
Sit and wonder
If you're thinkin'
About the fun
You've had with someone else
I know the truth
Is wasted on you

You had the choice
I thought we had it made
What's done is done
What's left to say?

I know you better
I know you better now
I know you better
I know you better now
I know you better
I know you better now

I know you better
I know you better now
